NEW COURSE

Aquarium Technician Program

Overview

Become a skilled Aquatic Expert with LSeT's comprehensive curriculum. Whether you want to service home aquariums, design aquatic systems, or work in the ornamental fish trade, this course gives you both the theory and hands-on experience. Our expert trainers guide you in building sustainable ecosystems, diagnosing fish health, and mastering aquarium equipment.

Curriculum Highlights

Introduction to Aquarium Science

Basic understanding of freshwater & marine systems, role of an aquarium technician, essential equipment, and introductory species identification.

Marine Aquarium Setup & Maintenance

Marine biodiversity, water chemistry, diseases, filtration systems, salt preparation, species compatibility, and full marine aquarium setup with hands-on practice.

Freshwater Aquarium & Aquascaping

Aquascaping basics, freshwater tank setup, biotopes, planted aquarium care, plant & hardscape selection, disease management, terrarium/paludarium creation, and complete freshwater system build.

Hygiene & Cleanliness

Workplace hygiene standards, sanitization, safety practices, and maintaining a clean working environment.

Employability Skills

Communication & soft skills, digital skills, financial literacy, customer service, job readiness, interview practice, entrepreneurship basics.

Safety & Emergency Procedures

PPE usage, hazard identification, equipment safety, first aid, emergency handling (fire, leaks, infections), and safe waste disposal.

On-the-Job Training

Real-world training in live aquariums - maintenance, diagnosis, customer handling, system setup & troubleshooting.

What You Will Get?

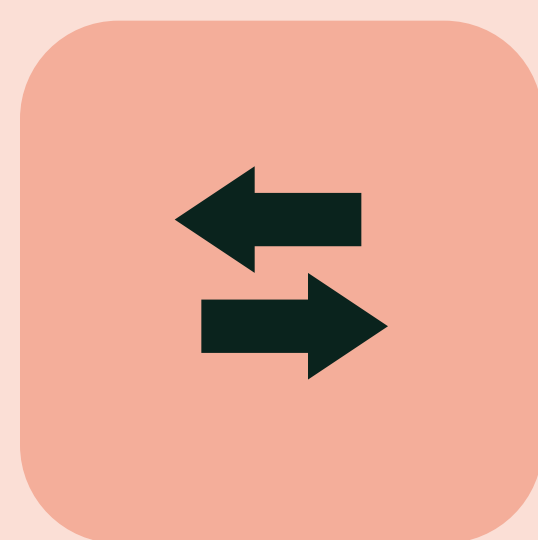

Comprehensive Training

390-hour professional certification with industry recognized credentials

Hands-On Practice

Real aquarium systems training with expert instructors

Dual Systems Coverage

Both marine and freshwater aquarium expertise

Aquascaping Training

Specialized design and biotope creation skills

Safety Certification

Complete hygiene and safety protocols training

Career Support

90 hours OJT, employability skills & job placement assistance

Training Benefits

Duration

3 months intensive training

Certification

Industry-recognised professional certificate

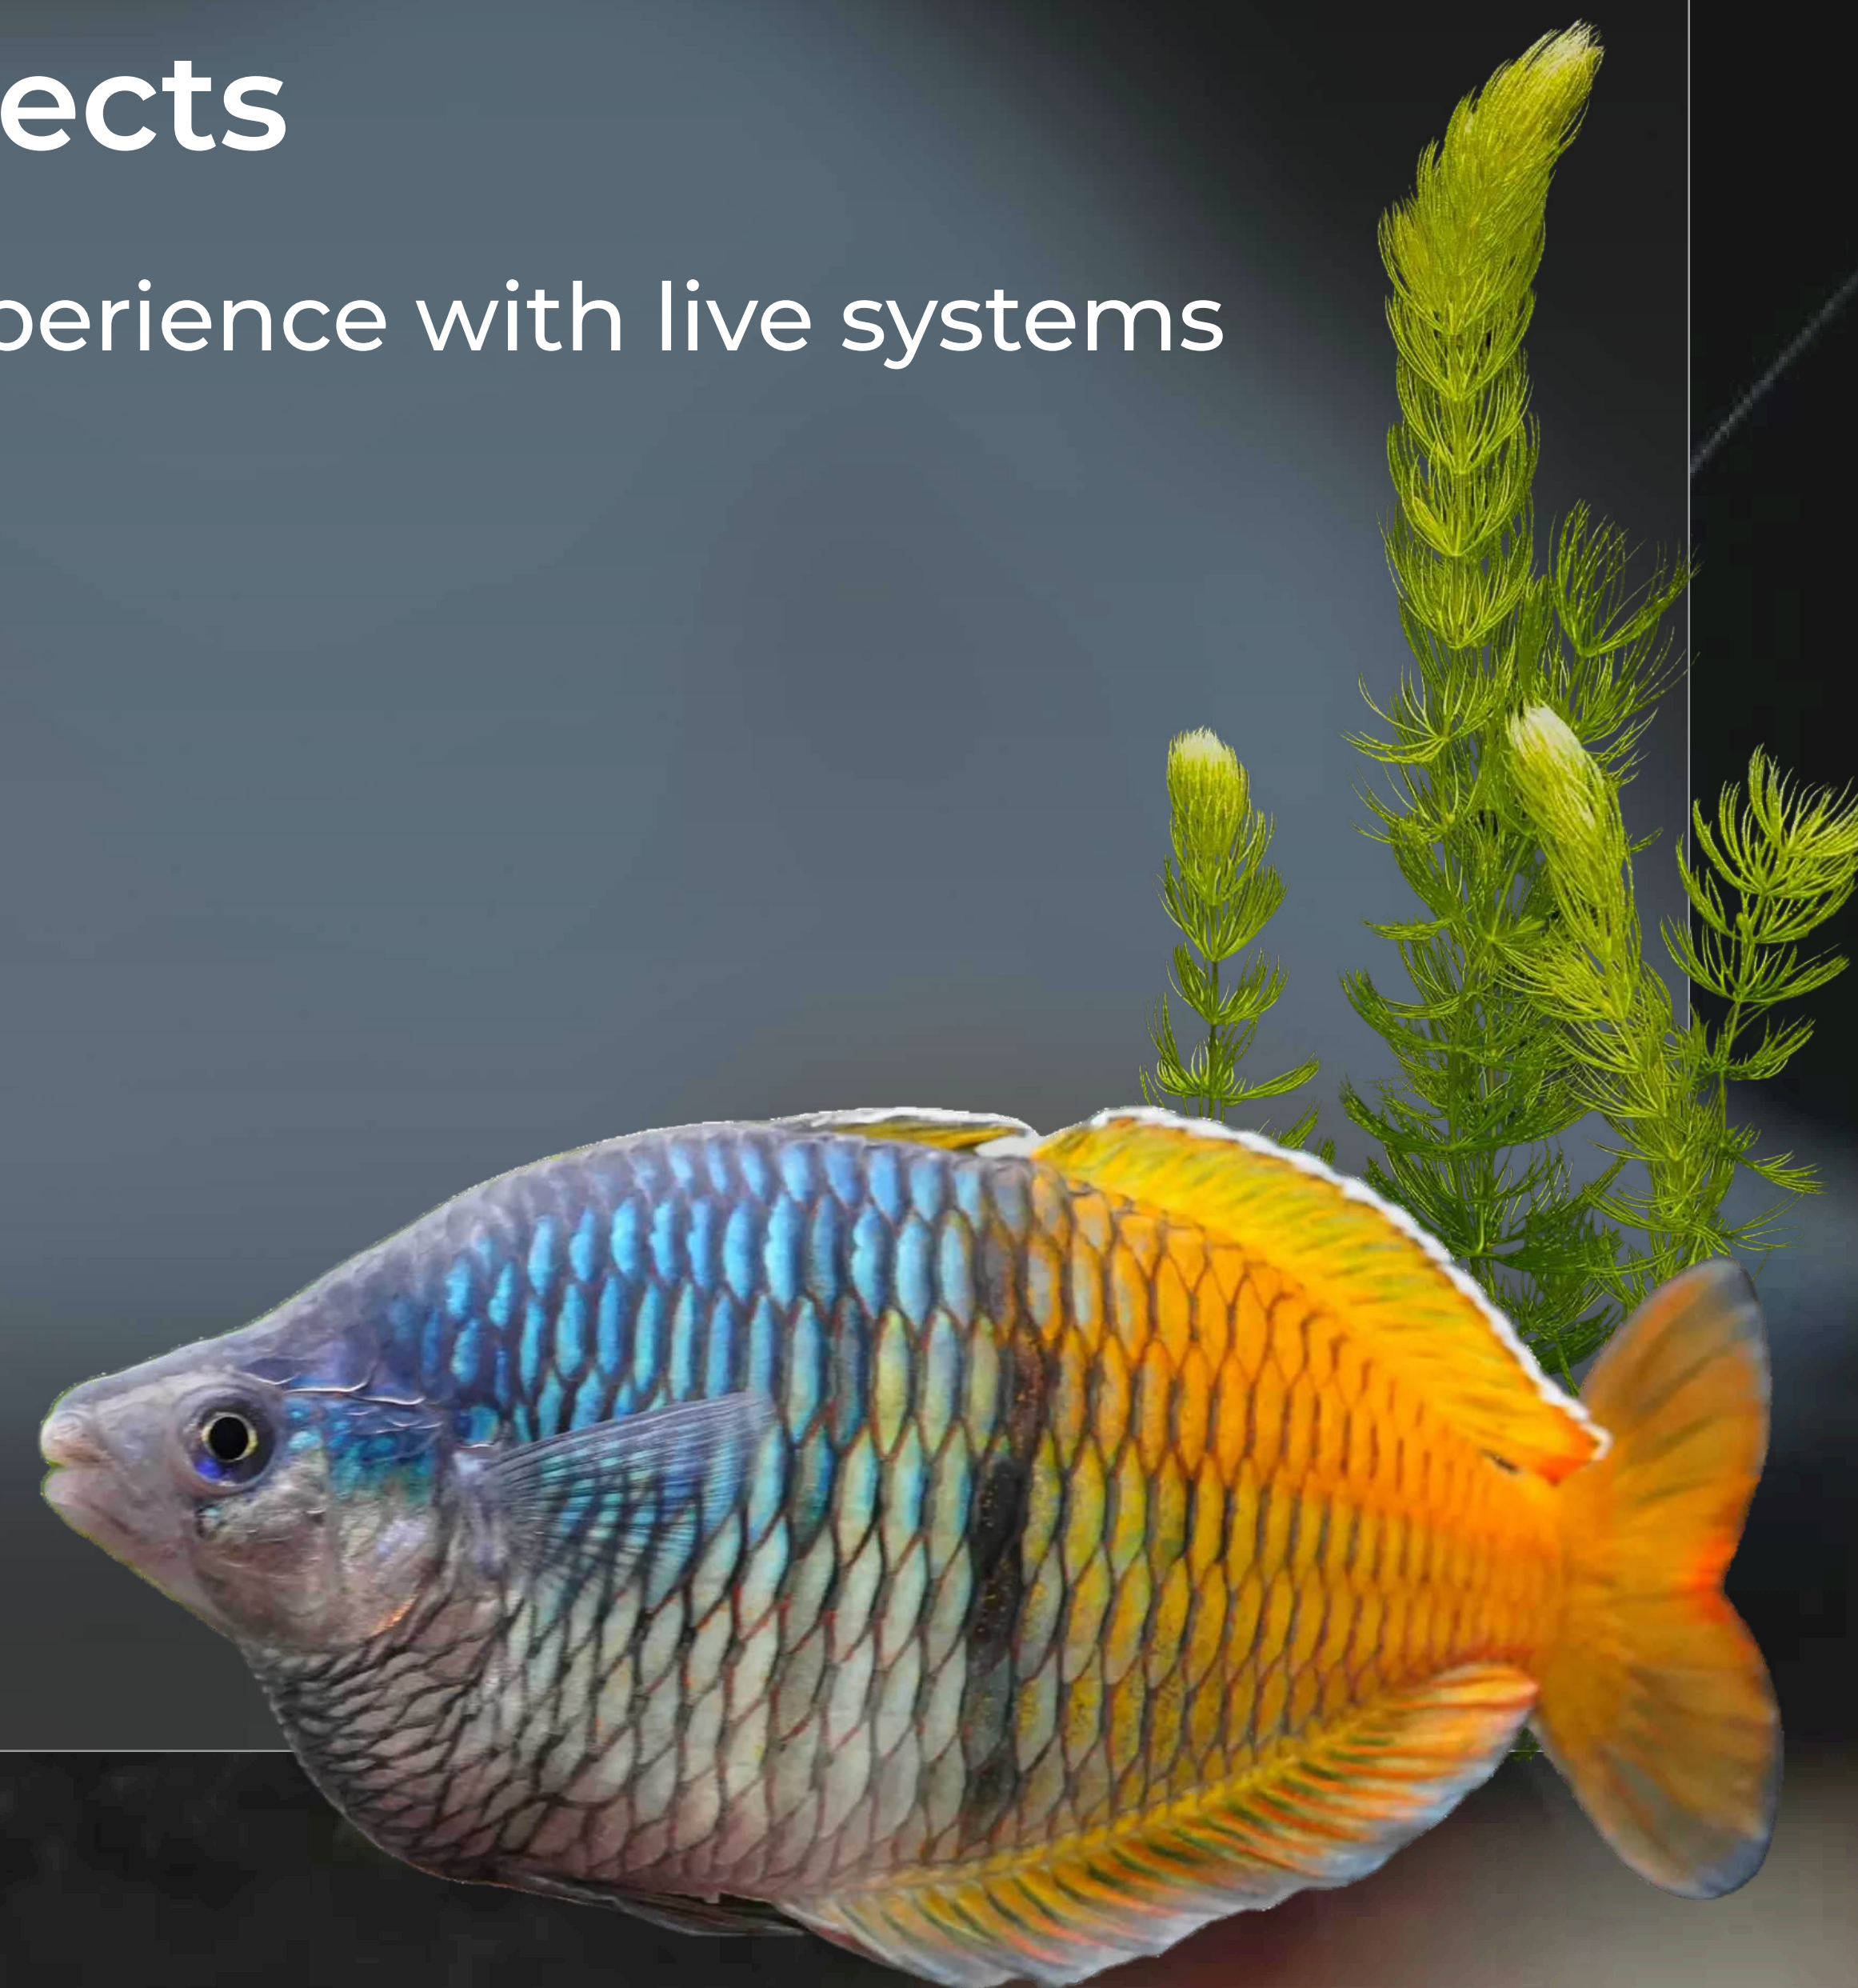

Job Opportunities

Direct placement for top performers

Real Projects

Hands-on experience with live systems

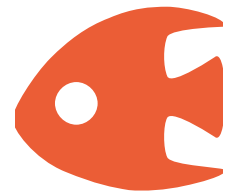

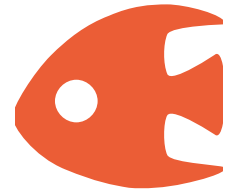

Career Prospects & Placements

-  Lab Operations
-  Nursery & Greenhouse Management
-  Aquascaper & Terrarium Artist
-  R&D / Quality Control
-  Product Management
-  Become a Trainer

Course Information

-  **Course Type:** On-site
-  **Start Date:** 27 April 2026
-  **Duration:** 3 months
-  **Class Day:** 6 days in a week
-  **Timing:** 10:00 AM – 6:00 PM
-  **Note:** Lunch included
-  **Basic Certification Course**

Learning in Action

Practical training, Live ecosystem work, and Guided classroom sessions.

 Live Tank Setup

 Creating Terrarium

 Instructor-Led Session

 Practical Skill Building

 Specimen Study

 Research Skill

Our Expert Panel

Mr. Amartya Ghosh
Aquascaper
Biotechnologist

Mr. Akeeb Patni
Aquarist
Discuss Fish Breeder

Mr. Rajesh Savvasere
Professional Aquascaper
Aquarist

**Mr. Shriram Manohar
Hatwalne**
Aquarist
Angel Fish Breeder

Dr. Leena Bhide
Fish Breeder

**Mr. Chandrahas
Rajda**
Fresh Water
Aquarium Specialist

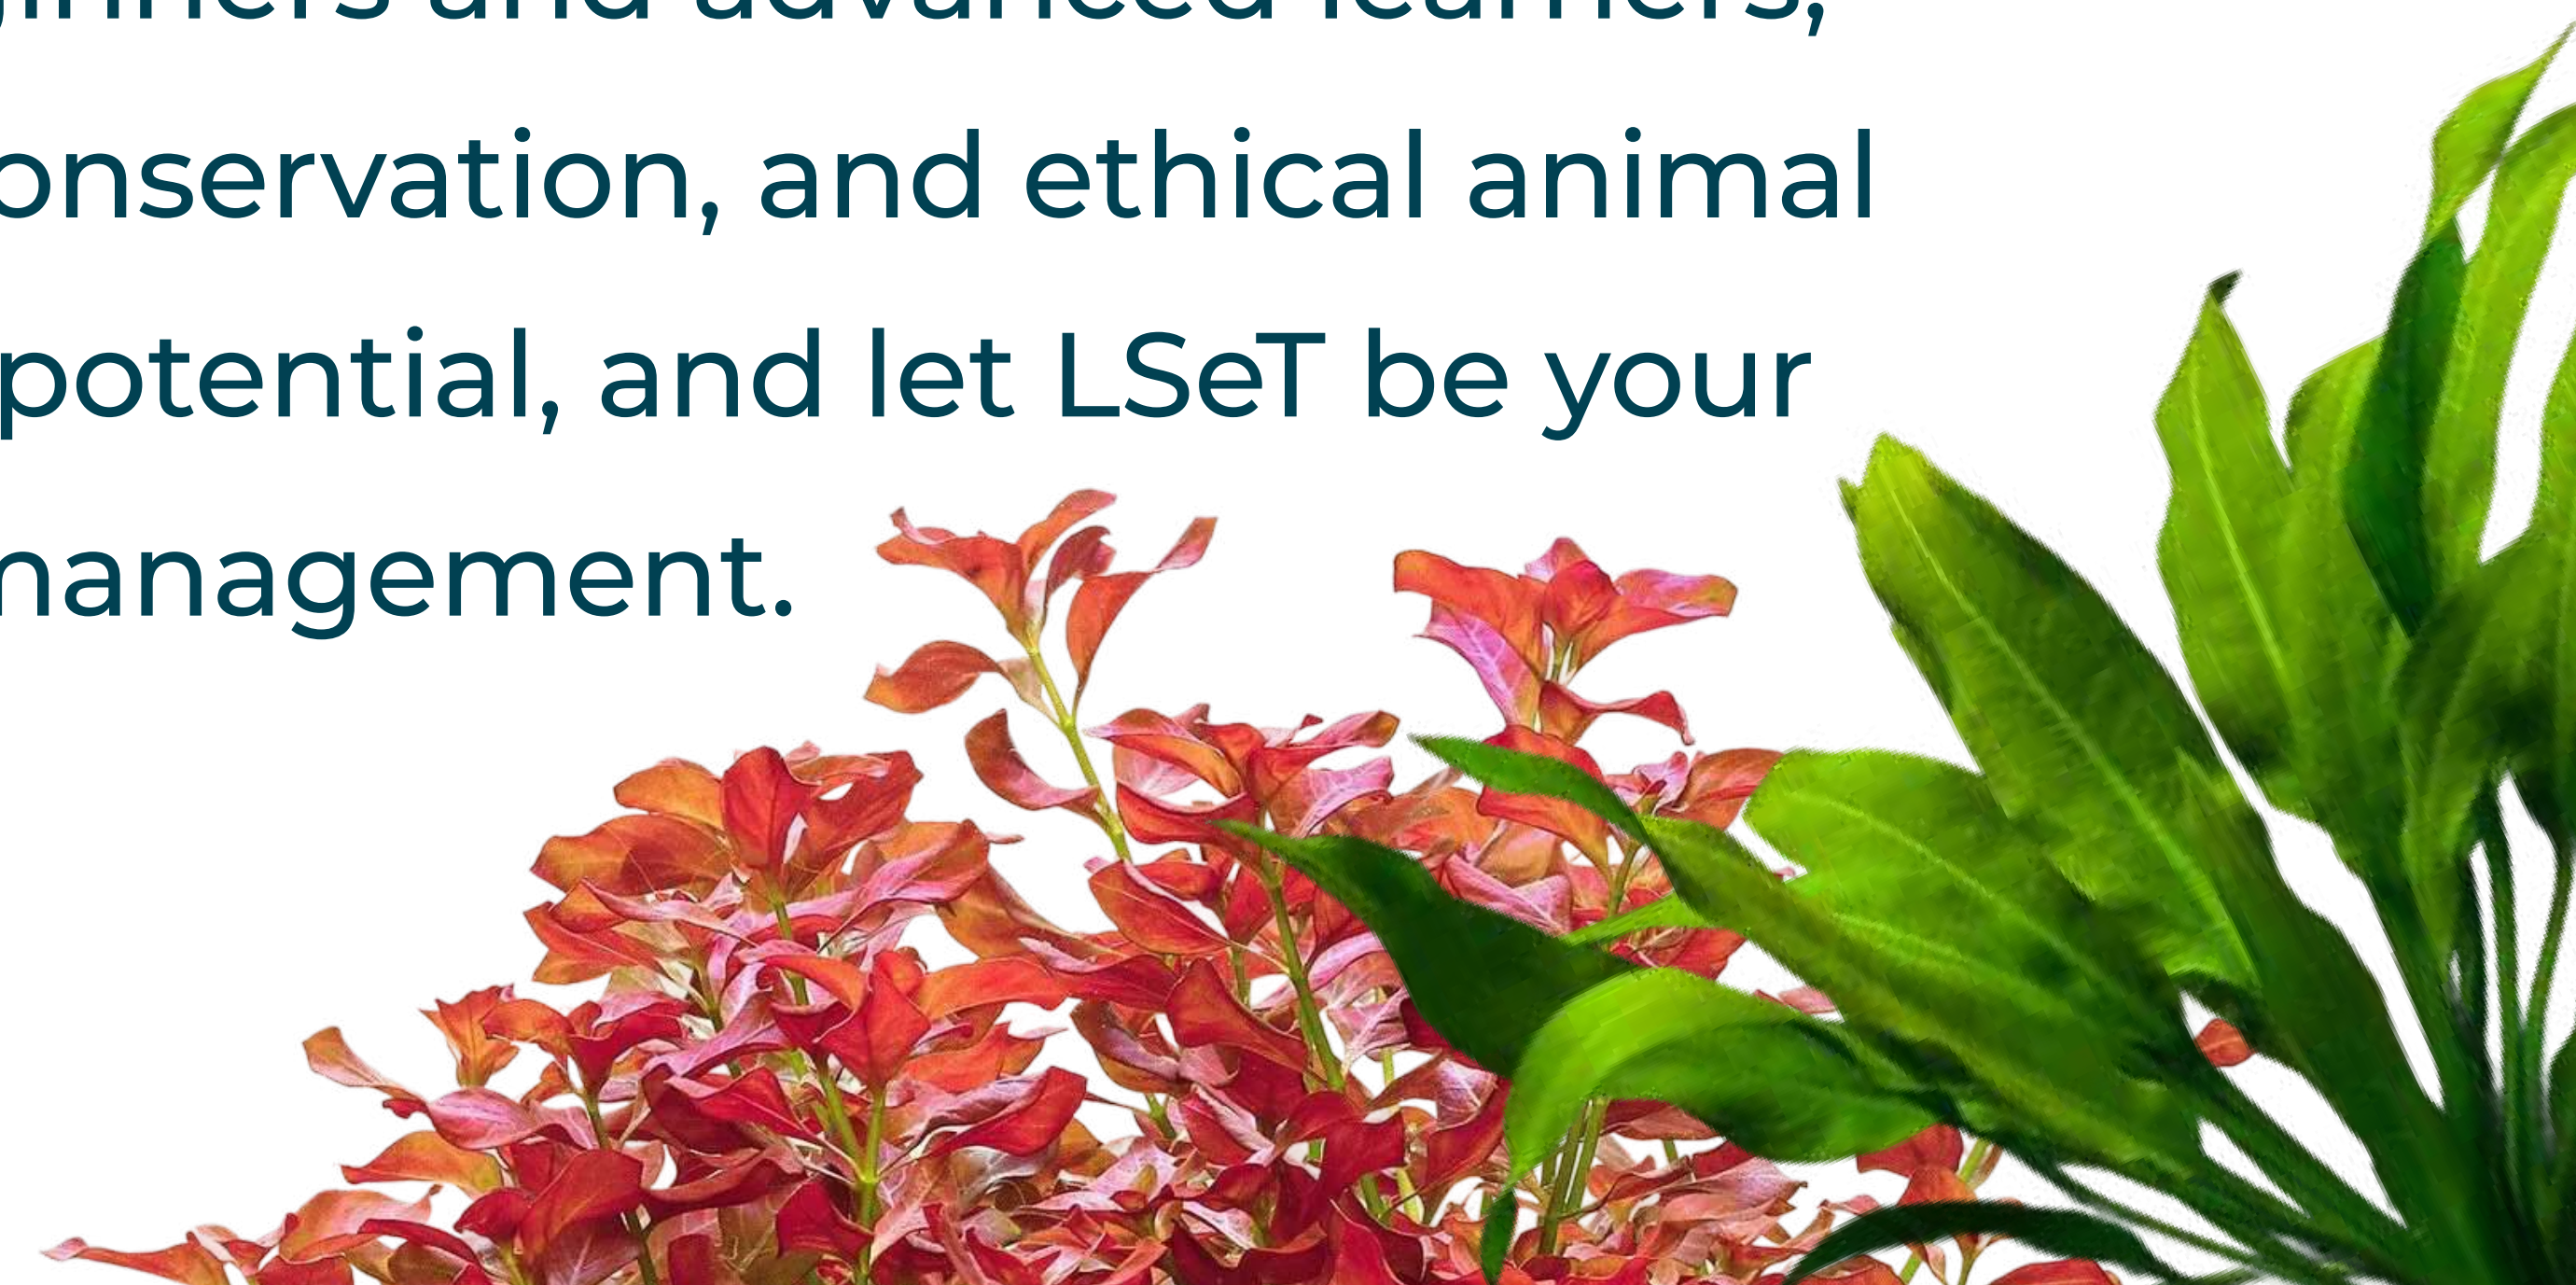

About Us

Founded in 2021 by **Anil Garg** and officially incorporated as a Section 8 Company in 2024, Life Science Education Trust is **India's pioneering institute** focused on animal care management. The institute supports students in transforming their passion for animals into meaningful careers through a strong combination of theoretical learning and hands-on practical training.

At Life Science Educational Trust, we believe that every creature, big or small, deserves our care and attention. Our programs suit both beginners and advanced learners, covering animal behaviour, nutrition, health care, conservation, and ethical animal management. Discover your passion, unleash your potential, and let LSeT be your gateway to a rewarding career in animal care and management.
